

People all over the world are beginning to understand that **the power to be healthy and happy** lies in their brain.

"I feel unimaginably lucky and grateful because every week, I get to see people experience relief from pain. The opportunity to be part of that gives me an energy and drive that I have never had before."

Polly Nelson

Nashville Neuro-Training - Nashville, Tennessee

"I believe that Brain State Technologies is developing and disseminating the premier technology for facilitating global human development."

Sung Lee, M.D.

BrainWell Center - Sedona, Arizona

"Brain State Technologies also offers a wonderful alternative to psychotherapy. A non-medical model approach, it does not use psychiatric diagnosis. By balancing and harmonizing the brain, change happens. People feel better."

Deborah Mashall, MA

BrainWise Neural Integration Center- Nanaimo, British Columbia

"I chose Brain State Technologies as an adjunct to the work that I do here in Stonington as a certified medical hypnotherapist, teacher and a writer because it was the logical next step."

Jane Percy, BA CLH CHT

Riverlight Brain Training Center- Stonington, Connecticut

**The best way to understand
Brainwave Optimization
is to experience it for yourself.**

BRAIN STATE
TECHNOLOGIES
The Leading System for Brainwave Optimization with RTB™

Brain State Technologies'® affiliates all over the world are helping people discover how good life can be when their brains are working in balance and harmony. Our affiliates are helping:

- Children with learning disabilities
- Soldiers returning from war with debilitating symptoms of PTSD
- People who can't kick their addictions
- People who have suffered traumatic brain injuries
- Athletes who have been injured or just want to improve their performance
- People who can't sleep
- People who are depressed

Awareness is INCREASING & consumer DEMAND is high.

Brain State Technologies is looking for people to meet the growing demand.

Do you want to:

- Be your own boss?
- Help others?
- Expand your understanding of your own brain and your health and happiness?

Brain State Technologies offers you options that make it easy and affordable for you to come to the cutting edge. Our education program allows you to become a Certified Brainwave Technologist with four weeks of online training and one week in Scottsdale.

Brain State Technologies provides you with:

- The world's largest database of brainwave patterns
- The most effective technology available
- The sector's most comprehensive training, support and turn-key package
- New protocols delivered to you continuously as new discoveries are made
- Reliable case management and technical support

Our affiliates come from a wide range of fields. Some come from the helping fields-- they are physicians, social workers, chiropractors, psychotherapists, substance abuse counselors, life coaches, pastors, nurses, massage therapists and others. Others have had years in business, teaching or other fields. They hold one thing in common: a real desire to help people with a proven method to help.

With our safe, non-invasive process, you can actually show your clients how their brainwaves are functioning -- and then guide them back to balance and harmony with a pleasant process that strengthens neural networks.

You can become a trained, certified and licensed provider with as little as \$5,000 down.
